

UPSTART™ ROOT ZONE HEATING KIT

Upstart Module

Upstart module connects to hot water heater. Piping connects to the header for Roll'N Grow mat. Can be applied to bench or floor growing applications.

FEATURES & BENEFITS

- Plug & play system application
- Heats up to 500 sq. ft. of growing space
- Connects to locally-acquired hot water heater
- System comes with remote media sensor
- Roll'N Grow mat included (4'x25')
- Piping and fitting pack included (25' distance)

WHERE IT WORKS

- Greenhouse or indoor facilities
- Floor or bench applications

Introducing the **Upstart Professional Root Zone Heating Kit**. BioTherm's Upstart module is attached to your water heater. Hot water is pumped through BioTherm's Roll'N Grow Mat. Plants are placed directly on the mat. The media temperature sensor tells the head unit when to cycle on & off to maintain optimum media temperature.

What's Included:

- Upstart module
- Roll'N Grow Heating Mat (4'x25') - Additional mats available for purchase
- Piping and fitting pack (25' distance)
